

**BETH BIGGS**  
*Vice President of Client Care  
for Consonus Pharmacy*

From the time Beth Biggs took her first job straight out of college, and through more than 25 years of long-term care leadership experience, she's been making an impact in the lives of seniors. "I've always believed we need to be thankful for the world they've built for us," she says. "It's a privilege to work in an organization that actively involves them in Vital Life Foundation charitable efforts."

As Vice President of Client Care for Consonus Pharmacy, Beth helps ensure needs are met for more than 15,000 residents in hundreds of post-acute rehab and assisted living facilities across the United States. She holds a Bachelor of Social Work degree from Minnesota State University, and a Master of Health Care Administration degree from Portland State University.

Coming from an agricultural background, Beth is particularly passionate about the problem of hunger, especially as it impacts the senior population. She serves on the Board of Directors for Meals on Wheels People, a Foundation charitable partner, helping drive policy and programs. Through Friends of the Children, she also helps mentor youth, showcasing how careers in health care and the sciences represent viable dreams for their futures.

Beyond her volunteer service to Vital Life, Beth supports Medical Teams International, with a focus on the organization's Healthy Women, Healthy World initiative. She also serves on the Board of Directors for the Oregon River Safety and Preservation Alliance, working to preserve Oregon's rivers for future generations.
